What is Fix the List? People with developmental disabilities

and their families have repeatedly made their opinions clear: Ohio's waiting list for Home and Community-Based Services (HCBS) waivers is overly complex and in need of simplification.

The current waiting list confuses people with developmental disabilities and their families, misleads advocates, and hinders efforts by policymakers to direct resources to where they are needed most. New rules for the waiting list are set to be announced later this month. They will include a couple of key changes designed to make the system, which currently includes thousands of people waiting for services they might need in the distant future, more responsive to immediate need.

That is why the Ohio Association of County Boards joined a coalition to modernize Ohio's failed waiting list. This coalition (shown below) includes groups representing people with developmental disabilities, parents, families, advocates, county boards of DD, providers, and the State of Ohio.

**FIX
THE
LIST.**

Through the efforts of this coalition and informed by the feedback of people with developmental disabilities and their families, we believe that a new approach to the way Ohio's HCBS waiver waiting list operates is needed. It's time to **Fix The List.**
